*This Curriculum Overview is the plan of study requirements for all students entering their Foundation year in **FALL 2020 and SPRING 2021**. Advanced Standing students (those admitted with a BSW) must follow the 2020-2021 Advanced Standing Curriculum Overview instead.*

### **ADVANCED CURRICULUM:**

All students complete the same 27 credits of the Foundation curriculum and then the remaining 33 credits based on their selected Concentration and Specialization (requirements listed below). Students are required to take an advanced policy course, and (4) 3-credit methods courses in the selected concentration. A methods course within the concentration must be taken concurrently with Advanced Field Practicum each semester.

The Advanced Field Practicum setting is determined by the selected Concentration/Specialization and students will officially declare their Concentration and Specialization on their Advanced Field application. For those choosing a secondary concentration, please note that the field practicum reflects the primary concentration only. Advanced Field is two consecutive semesters scheduled typically on Tuesdays, Wednesdays and Thursdays unless specified differently by the Field agency. Students also have the option of a two-day a week Advanced Extended field placement, which extends their internship into July.
