Definitions of Frequently Used Field Education Terms

Types of Field Practicums: Foundation and Advanced (Advanced Clinical or Advanced Macro). Advanced students may select an extended schedule to remain in field to the end of July; going 2 days per week instead of 3 days.

Field Coordinator: The person in the field education office who carefully assesses each field application, educational course of study, and learning needs then assigns each student a specific field placement. Contact them throughout the year if the liaison or field instructor can’t answer questions.

Field Instructor: The Social Worker onsite at the agency who teaches students throughout the year at a field placement. They provide students with regular feedback, weekly supervision, review and comments on all paperwork; assign tasks, complete an assessment/evaluation of progress at mid-semester and the end of each semester. All of the activities of the student at the agency fall under their supervision and social work license.

Task Supervisor: Some field sites use a Task Supervision Model of Field Education. The Task Supervisor is the agency staff member that is assigned to assist students in learning the activities identified in the learning agreement. The task supervisor carries the responsibility for the client system and “shares” various case activities with students.

Field Liaison: The person hired by UMB to monitor the student’s progress in field. This person is the connection between the field instructor, student and UMB. If issues arise, students, and/or field instructors may seek guidance from the field liaison. Their job is to support the placement. They review work submitted in the EFN and issue grades for field.

EFN: Electronic Field Notebook: the online system through which students submit their assignments, receive feedback from their field instructors, and keep their liaison informed of their progress.

Competencies: Nine Social Work Competencies identify the essential skills and behaviors that encompasses and describe the essence of Professional Social Work Practice.

Behaviors: Observable actions that demonstrate an integration of knowledge, values, skills, and cognitive and affective processes that comprise the competency.

Learning Agreement: The educational plan that is developed between the student and their field instructor and approved by the Field Liaison. It is a collaborative process that describes the specific activities, tasks, and assignments the student will perform to achieve competencies.

Student Assessment: This is the “evaluation” a field instructor completes at each mid-semester and at the end of each semester to provide written feedback on student’s progress on the development of the behaviors for each competency.

Learning Activities: Learning activities are assignments/tasks that provide students with the opportunity to develop and demonstrate their attainment of behaviors related to core competencies.

CSWE: Council on Social Work Education

EPAS: Educational Policy and Accreditation Standards
