HRSA’s Reach

• 26 million individuals were served in over 10,400 service delivery sites operated by the nearly 1,400 health centers funded by the Health Center Program in 2016.

• 50 million women, infants, children, and adolescents benefit from HRSA’s maternal and child health programs.

• Over 500,000 people living with HIV/AIDS receive services through more than 900 HRSA-funded Ryan White Clinics. Two-thirds are members of minority groups.

• More than 10,400 National Health Service Corps clinicians are working in underserved areas, in exchange for loan repayment or scholarships.
MCHB’s Mission & Vision

Mission
To improve the health of America’s mothers & children

Vision
We envision an America where all children and families are healthy and thriving, where every child and family have a fair shot at reaching their fullest potential
MCHB programs promote the mental health & wellbeing of MCH populations across the child, and childbearing lifespan.

We focus our efforts on multiple levels:

- the provider level,
  - e.g., Healthy Start and Home Visiting
- the systems level,
  - e.g., Title V MCH Block Grant and Clinical Guidelines
- the policy level,
  - e.g., Supporting MCH Policy Innovation Pgm (MCH PIP)
- the workforce training level.
  - e.g., Developmental Behavioral Peds and Collab Office Rounds
Collaborative Improvement & Innovation Network on School-Based Health Services (CoIIN-SBHS)

- A CoIIN uses strategies of quality improvement to achieve objectives.
- The CoIIN includes school-based health centers, & school mental health (MH) systems.
- CoIIN Goals pertinent to school MH systems
  - Improve quality using a set of field-generated, consensus performance measures
  - Improve sustainability & expand numbers using best business practices & constructive internal policies

CoIIN made excellent progress during first 4 years!

New generation of program starts in Sept. 2018
  ➔ Continues same goals & includes new foci
